

April 2011

Mr. Chinn,

I just wanted to let you know that you are by far the most passionate and dedicated actor I have ever worked with. You came on board this project with an immeasurable level of energy and a head full of great ideas. I was ecstatic whenever we conversed over the months leading up to principal photography, discussing every aspect of your character. To have such dialogue with an actor, to be looking at the story from every angle and addressing every detail, that is something I cherish. Not only did it further flesh out your character, but it also augmented your performance ten-fold, oh, and did I mention that you were a trooper? Shooting in crazy winter conditions with an injured leg... if there is an equivalent to the Purple Heart in this industry, you certainly deserve it. I hope all is going well for you in New York, and I hope that our paths cross again one day. Take care, Mr. Chinn. It truly was a pleasure.

Sincerely,
Landon
